DATE	4 - 11 April 2017
INVOLVED COUNTRIES	Italy (Catania) - Serbia (Belgrade)
ACQUIRED SKILLS	Net improvement in the use of English in everyday life
INSTITUTE	Intercultura

Skills

SOCIAL SKILLS	Excellent communication skills. My discrete explanatory skills allow me to relate in a simple way with others, even during the explanation of more or less complex concepts
ORGANIZATIONAL SKILLS	Years of study in the aeronautical field play a fundamental role in allowing me to be able to maintain calm and control of the situation even in the most difficult moments
COMPUTER SKILLS	The passion for computer science has always been with me. I have excellent skills in the use of almost every OS (macOS, iOS, watchOS, Windows, Android, many Linux distributions), which has always allowed me to help those who are little similar to the computer world. In a very hobbyistic way, I created several websites, as well as several Android-based ROM builds. This allowed me to acquire basic skills over the years in Swift, Objective-C, Java, C #, HTML, Javascript and CSS. I have also experience in the repair and assembly of PC, with various architectures (ARM, x86, x64), socket (775, P, 1150, LGA1151, AM4) and motherboard standards (ATX, micro-ATX, mini-ATX) for several years now.
